Dear [REDACTED]

**Freedom of Information Request - Reference 21-008**

I refer to your application received by Transport Canberra and City Services (TCCS) on 28 January 2021. It is my understanding you are seeking access to *“the most up-to-date “Community Path Priority List”, as at the date of your response to this request”*.

I am an Information Officer appointed by the Director-General under section 18 of the Act to deal with access applications made under Part 5 of the Act.

A decision on access to government information was due to you by 25 February 2021 and was not made within the allowed timeframe. In accordance with section 39(3) of the FOI Act, TCCS have decided to continue process your application outside of time.

**Decision on access**

A search of records held by TCCS has been completed and an electronic database was identified to contain information relevant to your application. Relevant information held in this database was extracted on 16 February 2021 into a singular record (18 pages).

As the list of community path requests is linked directly to requests made through Fix My Street, the list is altered daily. Requests are prioritised based on the following 5 factors:

1. Safety;
2. Strategic (how the request completes routes identified as part of the [Active Travel Infrastructure strategic path network](#));
3. Community (proximity to community attractions and trip generators, shops, schools, residential areas);
4. Public transport- proximity to relevant public Transport facilities such as bus stops; and
5. Demand.

Available funding is also considered in the management of these requests. While a request may be listed in the database, the fulfilment of a request depends on the above listed factors and in some instances the request may not be fulfilled. In accordance with section 17 of the Act, I have considered the public interest in relation to information within this document and have provided you with partial

TCCS.FOI@act.gov.au | phone: (02) 620 72987 | [www.act.gov.au](http://www.act.gov.au)

access to this record. I have refused access to some information within this record as I have found the information to be contrary to the public interest. My decision is detailed further in the following statement of reasons. The record is enclosed at Attachment A with deletions to information which is contrary to the public interest.

### **Statement of Reasons**

In making my decision on disclosing government information, I must identify all relevant factors in schedule 1 and 2 of the FOI Act. I must also determine, on balance, where the public interest lies. In reaching my access decision, I have taken the following into account:

#### *Factors favouring disclosure in the public interest (Schedule 2.1)*

- Schedule 2.1(a) (ii) - contribute to positive and informed debate on important issues or matters of public interest.
- Schedule 2.1(a)(iii) - inform the community of the government's operations, including the policies, guidelines and codes of conduct followed by the government in its dealings with members of the community;
- Schedule 2.1(a)(iv) - ensure effective oversight of expenditure of public funds; and
- Schedule 2.1(a)(viii) - reveal the reason for a government decision and any background or contextual information that informed the decision.

#### *Factors favouring non-disclosure (Schedule 2.2)*

- Schedule 2.2 (a)(ii), prejudice the protection of an individual's right to privacy.

In reviewing the information within the record, it was identified that the disclosure of most of the information would contribute to a transparency of process, inform the community on government operations, and reveal the reason for a government decision.

Personal information about third parties have also been identified within the documents subject to this request. Personal information means information or an opinion whether true or not about an individual whose identity is apparent or can be ascertained from the information or opinion. The *Information Privacy Act 2014* prescribes how government collects, uses, shares, and stores this information. It is my understanding that this information was provided specifically for the purpose of making an application to TCCS and the information may not be currently available to the public. I have considered the likelihood that disclosing this type of information would prejudice an individual's right to privacy or any other right under the *Human Rights Act 2004*.

In this instance, I find that the disclosure of the personal information within this document is contrary to the public interest.

**Charges**

No fee is applicable, as the total number of pages being disclosed is within the fee-free threshold.

**Disclosure Log**

In accordance with section 28 of the Act, TCCS maintains an online record of access applications called a disclosure log, which is accessible [here](#).

Your access application, this notice of decision and records released to you will be published on the disclosure log within 3-10 business days, with your personal information removed.

**Ombudsman review**

My decision on your access application is a reviewable decision as identified in Schedule 3 of the Act. You have the right to seek an Ombudsman review of my decision under section 73 of the Act within 20 working days from the day that my decision is made or a longer period if allowed by the Ombudsman.

If you wish to request a review of my decision, you may write to the Ombudsman at:

The ACT Ombudsman  
GPO Box 442  
CANBERRA ACT 2601  
Via email: [actfoi@ombudsman.gov.au](mailto:actfoi@ombudsman.gov.au)

**ACT Civil and Administrative Tribunal (ACAT) review**

Under section 84 of the Act, if a decision is made under section 82(1) on an Ombudsman review, you may apply to the ACAT for review of the Ombudsman decision.

Further information may be obtained from ACAT at:

A manhole/service is on the way. May need path realignment.

Landscaping, additional streetlights, traffic management and utilities relocation are required.

alternative off-road paths provide access to the local centre

Path would improve connectivity.
