Dear [REDACTED]

Freedom of Information Request - Reference 23-116

I refer to your application for access to government information received by Transport Canberra and City Services (TCCS) on 9 October 2023 in which you sought access to the following government information:

“Please provide information for the last five (5) years from the 13th of August 2023 (thus to 13 August 2018) related to all public works, accidents, reports of injury, ambulance requests, ‘fix my street’ requests, repair works, notifications of issues, quotations or things of a similar nature etc relating to the corner of Flinders Way and Franklin Street in Manuka.”

I thank you for providing the following views on the public interest:

“I believe this corner is dangerous as I was injured there.”

Timeframes

A decision is due on your access application by 20 November 2023.

Authority

I am an Information Officer appointed by the Director-General under section 18 of the Act to deal with access applications made under Part 5 of the FOI Act.

Decision on access

In accordance with the FOI Act, a search of TCCS records has been completed and relevant information within our data management systems has been identified. Consistent with the FOI Act, this data has been collated into six records.

In reviewing the information within these records, and applying the public interest test under section 17 of the FOI Act, I have decided to provide you with:

- Partial access to 4 records; and
- Full access to 2 records.

Reasons for my decision are detailed further below in the statement of reasons.

No information relating to ambulance requests were identified to be held by TCCS. In accordance with section 57 of the FOI Act, a copy of the application was provided to the Justice and Community Services Directorate (JACS) to determine if they would hold relevant information. JACS have advised that ambulance records are health records and are therefore not able to be requested under FOI. It is my understanding that JACS have contacted you directly in relation to this part of your application.

Statement of Reasons

In making my decision on disclosing government information, I must identify all relevant factors in schedule 1 and 2 of the FOI Act and determine, on balance, where the public interest lies. In reaching my access decision, I have taken the following into account:

Schedule 1:

- No relevant factors identified.

Schedule 2:

Factors favouring disclosure in the public interest (Schedule 2.1)

- Section 2.1(a)(i) - promote open discussion of public affairs and enhance the government's accountability;
- Section 2.1(a)(viii) - reveal the reason for a government decision and any background or contextual information that informed the decision; and
- Schedule 2.1(a)(xiii) - contribute to the administration of justice generally, including procedural fairness.

Factors favouring non-disclosure (Schedule 2.2)

- Section 2.2(a)(ii) - prejudice the protection of an individual's right to privacy or any other right under the *Human Rights Act 2016*.

In reviewing the relevant records, personal information relating to third parties has been identified. I find that factor 2.2(a)(ii) is relevant to this information and I must consider if the disclosure is likely to prejudice the protection of an individual's right to privacy under the *Human Rights Act 2004*. I have found that this information is not readily available to the public and has not otherwise been disclosed by TCCS. I find that the protection of an individual's right to privacy under the *Human Rights Act 2004* carries significant weight. In this instance, I have found the disclosure of personal information to be, on balance, contrary to the public interest.

I find that the factors favouring disclosure can be met with the deletion of information that is contrary to the public interest. A schedule of the relevant records is enclosed at [Attachment A](#) and a copy of the relevant records with deletions applied to information contrary to the public interest is enclosed at [Attachment B](#).

Charges

In accordance with [Freedom of Information \(Fees\) Determination 2018](#), a fee of \$0.35 per page of information disclosed, except for the first 50 pages, may be applied to an access application. I have decided not to apply a fee to your application as the total number of pages marginally exceeds the fee-free threshold.

Online publishing – disclosure log

Under section 28 of the Act, TCCS maintains an online record of access applications called a disclosure log. A copy of your application, my decision and records disclosed to you will be published on the [TCCS Disclosure Log](#) within 3 – 10 business days. Your personal information will be deleted from these copies prior to publication.

Ombudsman review

My decision on your access request is a reviewable decision as identified in Schedule 3 of the Act. You have the right to seek an Ombudsman review of this outcome under section 73 of the Act within 20 working days from the day that my decision is published in TCCS' disclosure log, or a longer period allowed by the Ombudsman.

If you wish to request a review of my decision, you may write to the Ombudsman at:

TCCS.FOI@act.gov.au | phone: (02) 620 72987 | www.act.gov.au

Via email: actfoi@ombudsman.gov.au

ACT Civil and Administrative Tribunal (ACAT) review

Under section 84 of the Act, if a decision is made under section 82 on an Ombudsman review, you may apply to the ACAT for review of the Ombudsman decision.

Further information may be obtained from ACAT at:

1061264	25/09/2018		Road Pavement	Closed \ Cancelled	ICS FORMS	6 Franklin St, Griffith	<p>Good afternoon</p> <p>I'd like to request a review of the existing loading zone on Manuka Circle, Griffith adjacent the Capitol Theatre Centre.</p> <p>This loading zone creates considerable issues for our parking enforcement units due to the layout of the area. The section of Manuka Circle to which this loading zone applies is less than 4 metres wide. As such, most vehicles occupying this loading zone are not able to leave sufficient space for other vehicles to pass. It is extremely common to see vehicles mounting the gutter and occupying the footpath to accommodate the flow of traffic. This creates a scenario where it is considered improper for an enforcement officer to issue an infringement to said vehicles. Parking officers are not authorised to give drivers permission to park illegally.</p> <p>Please consider converting the loading zone to a pick-up set-down zone. These zones are in very short supply in the Manuka precinct.</p> <p>Many thanks</p>	same request as 1061265

As you're probably aware, it's constantly congested with non-Taxis. Partly because people don't realise the Loading Zone becomes a Taxi Rank after 6pm. Mainly because of the Westpac ATM, the chemist, and the pub.</p> <p>I presume that as the Capitol Theatre site is redeveloped, you'll review the parking arrangements on Franklin Street.</p> <p>In the interim, I suggest moving the Taxi Rank to the other side of the street. The Queanbeyan bus stop can be moved to outside the TAB.</p> <p>The redundant bus stop outside Manuka Plaza can be the new Loading Zone.</p> <p>The overflow Taxi Zones on Flinders Way are unneeded. Make them 5 minute zones and make what is now the Taxi Rank also a five minute zone. The Uber drivers will stop there regardless.</p> <p>If you can do these things then I can stop yelling at people for parking in a busy Taxi Zone.</p> <p>Please consider.</p>

23/11/2021	136955	Access to taxi services in Manuka after closing the taxi rank for pedestrian access only	My mother (88 years of age) was catching a taxi today in the new taxi 'rank' after closing the old rank to allow for pedestrian only access. Because of the depth of the gutter and no clear low access (deep gutter) she fell as she opened the door of the taxi. Luckily she held onto the door which prevented her falling onto the pavement and possibly having a major injury (falling backwards which may have resulted in a head injury). I would not hesitate to sue the ACT Government for not thinking things through and providing a safe taxi rank after closing the other rank to make way for pedestrian access only. It astounds me that this was not considered as part of the 'planning' in the closure of the street. Taxi services as it is are not great but luckily the taxi driver exited his taxi to help her to her feet. As a rule taxi drivers are not that nice - heaven forbid they would assist with carrying groceries to her doorstep - after all at 88 she must be able to manage heavy bags by herself. I digress. I will monitor if anything is done about updating/upgrading the taxi rank to make it more purposeful for passenger access and I hope that there is a change. As I have said, I will not hesitate if there is an incident where my mother is hurt to take action.	25 FLINDERS WAY, GRIFFITH ACT 2603	WR92684	371222
