Comments:

Second night of week 4 of the 2025 program. Operations commenced [REDACTED] Red Hill, [REDACTED] W Jerra [REDACTED] Mulangarri and [REDACTED] Gungaderra

Weather was cold, wet and very windy. This hampered operations across the sites for the evening.

W Jerra: [REDACTED]. Operations were very slow due to wet and windy conditions. Operations ceased at [REDACTED] with a total of 39 achieved for the evening.

Mulangarri: [REDACTED]. As with W Jerra progress was very slow. The open Grasslands of this reserve was buffeted with very high winds making the animals very skittish and increased the potential for wounding. It was decided at [REDACTED] that conditions were unsafe to continue operations were relocated to Gungaderra where shooters could operate more safely. 12 targets were achieved whilst operating in Mulangarri. One Female EGK with an ear tag was shot.

Gungaderra: [REDACTED]. Operations commenced in Gungaderra in relative safer conditions at [REDACTED] where the team achieved 50 for the evening. Operations ceased at [REDACTED]

Red Hill: [REDACTED]. Operations commenced at [REDACTED] and although the weather conditions were not favourable progress was steady reaching a target 63 for the evening. Ops ceased at [REDACTED] [REDACTED].

Comments:

Tonight was the final night of operations for the 2025 program. [redacted] shooting teams were on site at Googong – [redacted]

Googong south closed at [redacted] and operations commenced at [redacted]. Googong north closed at [redacted] and operations commenced at [redacted]

To minimise the chance of orphaning dependent joeys and young-at-foot, the culling of female kangaroos in the ACT is restricted to the period between 1 March and 31 July each year. Culling operations at both sites ceased at [redacted], in line with the ACT Government’s culling season.

Despite the early finish, 183 kangaroos were culled this evening bringing the total for Googong to 1088 just short of the operational target of 1096.
