Dear CEDFOI

I am writing to request access to documents under the Freedom of Information 2016. The National Capital Design Review Panel (NCDRP) provides advice on design quality for major development proposals. The NCDRP reviews development proposals under the supervision of the ACT Government Architect and the National Capital Authority's Chief planner. The City and Environment Directorate is responsible for the Secretariat role of the NCDRP.

Proponents submit a development proposal for consideration by the NCDRP. Members of the NCDRP are provided with a detailed brief on the development proposal. That detailed brief will be provided by the Secretariat to the NCDRP. The development may be subject to one session with the NCDRP or a number of sessions.

If the development proposal proceeds to a Development Application (DA) a copy of the report is included with the Development Application. Sometimes not all of the reports from the NCDRP are included in the in the DA.

I request access to the following documents for each development listed below:

- reports by National Capital Design Review Panel (NCDRP)
- advice from CED Secretariat to NCDRP on documentation considered by NCDRP – noting that in the event of multiple sessions there may be more than one brief generated.
