Location of *Eucalyptus blakelyi* RT1125 in Mawson

Field	Details of tree
Street address	Behind 76 Hurley Street, Mawson
Location	Urban Open Space near Mawson ponds
Botanical name	<i>Eucalyptus blakelyi</i>
Common name	Blakely's Red Gum
Tree height	20.0m
Canopy broadest diameter	25.5m
Description of radial measurement	

ACT Tree Register

Field	Details of tree
Canopy radial measurement	R1: 12.0m R2: 7.0m R3: 13.5m R4: 12.0m
Trunk circumference	380cm
Number of trunks	1
Tree Protection Zone	Canopy plus two (2) metres
Grid co-ordinates GDA 2020 Zone 55	X – 690173.69 Y – 6084848.68

Registration Criteria that presently apply, other criteria may apply after further assessment.

(2) Landscape and aesthetic value

The object of this value is to identify trees that are of particular importance to the community due to their substantial contribution to the surrounding landscape.

A tree may be considered to be of landscape and aesthetic value if it is situated in a prominent location when viewed from a public place and it:

- (a) contributes significantly to the surrounding landscape based on its overall form, structure, vigour and aesthetic values; or
- (b) represents an outstanding example of the species, including age, size or habit; or
- (c) is an exceptional example of a locally native species that reached maturity prior to urban development in its immediate vicinity.

(3) Scientific and ecological value

The object of this value is to identify trees that are of particular importance to the community due to values associated with their ecological, genetic or botanical significance or ability to substantially contribute to the scientific body of knowledge and understanding.

A tree may be considered to be of scientific and ecological value when it:

- a) is evidence of the former range limits or extent of the species or an ecological community; or
- (b) is a listed threatened native species that is now reduced in range or abundance; or

ACT Tree Register

(c) demonstrates a likelihood of providing information which will contribute significantly to a wider understanding of natural history by virtue of its use as a research site, teaching site, type locality or benchmark site; or
(d) is of botanical or genetic value and is not well represented elsewhere in the Territory; or
(e) is a significant habitat element, including mature native trees (including hollow-bearing trees) for a threatened native species; or
(f) provides exceptional contributions to habitat, habitat connectivity or the surrounding ecosystem and is/are irreplaceable.

Statement against the Criteria

This tree is located on built-up urban area to which the above criteria apply. The tree meets the criteria of Landscape and Aesthetic value, and Scientific value as defined under the *Urban Forest Act 2023*.

This grand old tree contributes significantly to the open space area near the Mawson ponds. It is full of habitat with hollows and nests present in its canopy. It is an exceptional example of a locally native species that reached maturity prior to urban development in the area and adds character and beauty to the landscape.

For the above reason/s I am satisfied that the landscape and aesthetic, and scientific values are high, and that the tree significantly contributes to the above values in the surrounding landscape.

Furthermore, I am not satisfied that the tree meets the criteria for cancellation of registration.

Number RT1125 Mawson

Eucalyptus blakelyi (Blakely's Red Gum)

ACT Tree Register

(Registration)

Pursuant to Division 4.3 of the *Urban Forest Act 2023* as the Conservator of Flora and Fauna and for the reasons stated against the criteria above, I hereby make a decision under section 60 (1) to register the above tree on the ACT Tree Register.
