Specifically, I am requesting the list or database that the government uses to record requests received for more lighting and the list or database the government uses to record potential streetlights for infill".

Timeframes

A decision is due on your access application by 17 January 2024.

Authority

I am an Information Officer appointed by the Director-General under section 18 of the Act to deal with access applications made under Part 5 of the FOI Act.

Decision on access

In accordance with the FOI Act, a search of TCCS records has been completed and one record has been identified as relevant to your application. The record identified as relevant to your application is enclosed at [Attachment A](#).

Upon reviewing the information within this record and applying the public interest test under section 17 of the FOI Act, I have found it to be in the public interest to provide you with partial access. The reasons for my decision are detailed below in the statement of reasons.

Statement of Reasons

In making my decision on disclosing the relevant government information, I must identify all relevant factors in schedule 1 and 2 of the FOI Act and determine, on balance, where the public interest lies. I have taken the following into account:

- The FOI Act; and
- The *Human Rights Act 2016*.

Schedule 1:

- No relevant sections identified.

Schedule 2:

Factors favouring disclosure (Schedule 2.1)

- Schedule 2.1(a)(i) - promote open discussion of public affairs and enhance the government's accountability.
- Schedule 2.1(a)(iv) - ensure effective oversight of expenditure of public funds;
- Schedule 2.1(a)(viii) - reveal the reason for a government decision and any background or contextual information that informed the decision.

Factors favouring non-disclosure (Schedule 2.2)

- Schedule 2.2(a)(ii) - prejudice the protection of an individual's right to privacy or any other right under the *Human Rights Act 2016*.

In reviewing the relevant record, I have identified third party personal information, such as names and contact details, or information which is likely to identify a third party. I have considered that this information is not readily available to the public and the disclosure of this information is likely to prejudice the protection of an individual's right to privacy under the *Human Rights Act 2004*. I have attributed significant weight to this factor and find the disclosure of personal information to be, on balance, contrary to the public interest.

I have found that the factors favouring disclosure can be satisfied with the deletion of information which is contrary to the public interest. A copy of the relevant information is enclosed at [Attachment A](#).
