Certification

I/We being a Professional Engineer registered under the ACT's Professional Engineers Registration Scheme established as part of the Professional Engineers Act 2023 and a duly authorised representative of do hereby certify that I/We have exercised reasonable skill, care and diligence to ascertain that the Works have been executed in accordance with:

- the certified design and technical specifications, including the specified tolerances
- Standards
- good engineering practice and to a satisfactory standard of workmanship

We further certify that the Works As Executed Records submitted herewith (including survey information prepared by others), to the best of our knowledge and belief, represent a true and accurate record of what has been constructed.

We further certify that all variations from the certified design comply, in all respects, with the Standards and are incorporated in the Works As Executed Records.

Note: the definition of the terms 'Works' and 'Standards' shall be the same as that given in Reference Document 6.
