# ACT Tree Register

## Provisional Tree Registration

### Nomination RT1272 Wanniasa

Species: *Eucalyptus polyanthemos* (Red Box Gum)

Location: PRZ1 Urban Open Space Block 1 Section 250, Wanniasa

*Eucalyptus polyanthemos* RT1272, Wanniasa

## ACT Tree Register

Aerial image showing location of the tree

Location of *Eucalyptus polyanthemus* RT1272 in Wanniasa

## ACT Tree Register

Field	Details of tree
Street address	Opposite 12 Bromell Circuit, Wanniassa
Location	PRZ1 Urban Open Space Block 1 Section 250, Wanniassa
Botanical name	<i>Eucalyptus polyanthemos</i>
Common name	Red Box Gum
Tree height	17m
Canopy broadest diameter	18.4m
Description of radial measurement	
Canopy radial measurement	R1: 10.4m R2: 10.4m R3: 8.0m R4: 5.0m
Trunk circumference	270cm
Number of trunks	1
Tree Protection Zone	Canopy plus two (2) metres
Grid co-ordinates GDA 2020 Lat/Long	Latitude: 35.39581° S Longitude: 149.09284° E

## ACT Tree Register

**Registration Criteria that presently apply, other criteria may apply after further assessment.**

### **(3) Scientific and ecological value**

The object of this value is to identify trees that are of particular importance to the community due to values associated with their ecological, genetic or botanical significance or ability to substantially contribute to the scientific body of knowledge and understanding.

A tree may be considered to be of scientific and ecological value when it:

- a) is evidence of the former range limits or extent of the species or an ecological community; or
- (b) is a listed threatened native species that is now reduced in range or abundance; or
- (c) demonstrates a likelihood of providing information which will contribute significantly to a wider understanding of natural history by virtue of its use as a research site, teaching site, type locality or benchmark site; or
- (d) is of botanical or genetic value and is not well represented elsewhere in the Territory; or
- (e) is a significant habitat element, including mature native trees (including hollow-bearing trees) for a threatened native species; or
- (f) provides exceptional contributions to habitat, habitat connectivity or the surrounding ecosystem and is/are irreplaceable.

### **Statement against the Criteria**

This tree is located on built-up urban area to which the above criteria apply. The tree meets the criteria of Scientific and Ecological value as defined under the *Urban Forest Act 2023*.

This tree is a remnant of the dry sclerophyll woodlands common on rocky hillsides and ridges. The tree is providing significant habitat and habitat connectivity elements for local wildlife and has been a prominent feature of the landscape due to its size and form.

For the above reasons I am satisfied that the scientific and ecological value is high, and that the tree significantly contributes to the above value in the surrounding area.

Furthermore, I am not satisfied that the tree meets the criteria for cancellation of registration.

## ACT Tree Register

**Number RT1272 Wanniasa**

***Eucalyptus polyanthemos* (Red Box Gum)**

ACT Tree Register

**(Provisional Registration)**

Pursuant to Division 4.3 of the *Urban Forest Act 2023* as the Conservator of Flora and Fauna and for the reasons stated against the criteria above, I hereby make a decision under section 55 (1) to provisionally register the above tree on the ACT Tree Register.

Period of provisional registration: 1 year beginning from today. The provisional registration may end earlier if, prior to the end of that period, I decide to fully register, or not to fully register, the tree.

Conservator of Flora and Fauna – *Bren Burkevics* 29/1/2026
