Dear Ms [REDACTED]

**Freedom of Information request: Reference - 18-041**

I refer to your application under section 30 of the *Freedom of Information Act 2016* (the Act), received by Transport Canberra and City Services Directorate (TCCS) on 22 May 2018, in which you sought access to:

- documents generated or received by the ACT Government in relation to various traffic surveys that have been undertaken in Hawker, particularly surveys that included the streets, Delamere and Walhollow. These documents would include final reports, correspondence, contract details, intermediary findings, recommendations, methodology and other relevant material.

I am an Information Officer appointed by the Director-General under section 18 of the Act to deal with access applications made under Part 5 of the Act.

TCCS is required to provide a decision on your access application by 21 June 2018.

#### **Decision on access**

Searches were completed for relevant documents and eleven documents were identified that fall within the scope of your request. I have provided a summary of the documents in the schedule at Attachment A. This provides a description of each document that falls within the scope of your request and the access decision for each of those documents.

Document 3 is a document that was prepared in response to a Question on Notice (QON 448) and I have only included the page that falls within the scope of your request.

I have applied the public interest test under section 17 of the Act and I have determined that disclosure of the information captured is not contrary to public interest. I have, therefore, decided to provide you with full access to the information with a copy of the documents at Attachment B.

You will note that I have included information which is outside the scope of your request being survey results of other road areas. I have included this information because it is not contrary to the public interest and ensures that the documents released are complete which will reduce any confusion which redaction of out of scope material may cause.

Further information regarding identifying the need for and prioritising traffic management in residential areas can be found at [www.tccs.act.gov.au/roads-paths/traffic/traffic-warrants-system](http://www.tccs.act.gov.au/roads-paths/traffic/traffic-warrants-system).

**Charges**

The first 50 pages of a release of information are provided free of charge. Your request has exceeded the threshold of 50 pages. The number of pages is 226 pages. The charge for your FOI request is \$61.00. I am required to waive these fees under section 107 of the Act as you are a Member of the Legislative Assembly.

**Online publishing – disclosure log**

Under section 28 of the Act, TCCS maintains an online record of access applications called a disclosure log. Your original access application, my decision and documents released to you in response to your access application will be published on TCCS' disclosure log from 3 days after the date of this decision. Your personal contact details will not be published.

You may view the TCCS disclosure log at [www.tccs.act.gov.au/about-us/freedom\\_of\\_information](http://www.tccs.act.gov.au/about-us/freedom_of_information).

**Ombudsman review**
