ACT Tree Register

Registration Criteria that presently apply, other criteria may apply after further assessment.

(1) Natural or cultural heritage value

The object of this value is to identify trees that are of particular importance to the community due to their intrinsic heritage values.

A tree may be considered to be of natural or cultural heritage value when it is:

- (a) associated with a significant public figure or important historical event; or
- (b) of high cultural heritage value to the community or cultural group, including trees associated with aboriginal heritage and culture; or
- (c) associated with a heritage nominated place and representative of that same historic period.

Statement against the Criteria

These trees are located on built-up urban area to which the above criteria apply. The trees meet the criteria of Natural / Cultural Heritage Value as defined under the Tree Protection Act 2005.

For the above reasons I am satisfied that the Heritage value is high, and that the trees significantly contribute to the above value.

Furthermore, I am not satisfied that the trees meet the criteria for cancellation of registration.

Number RT1140

Species Quercus robur (English Oak)

ACT Tree Register

(Provisional Registration)

Pursuant to Division 7.2 of the *Tree Protection Act 2005* as the Conservator of Flora and Fauna and for the reasons stated against the criteria above, I hereby make a decision under section 47 (1) to provisionally register the above tree on the ACT Tree Register.

Period of provisional registration: 1 year beginning from today. The provisional registration may end earlier if, prior to the end of that period, I decide to fully register, or not to fully register, the tree.
