Dear 

Freedom of Information Request – 18-088

I refer to your application made under the *Freedom of Information Act 2016 (the Act)* received by Transport Canberra and City Services (TCCS) on 2018 in which access is sought to:

- all traffic studies and road reports generated or received by the ACT Government in relation to Haydon Drive, Bruce from the years 2016 to present.

I am an Information Officer appointed by the Director-General under section 18 of the Act to deal with access applications made under Part 5 of the Act.

TCCS was required to provide a decision on your access application by 2 November 2018. I note that your office has agreed to an extension until 23 November 2018.

Decision on access

A search of TCCS records was conducted and 12 documents (35 pages) were identified that fall within the scope of your request. The reports that have been identified relate to the road resealing and linemarking program for several roads on the ACT network. Therefore, information about other roads has also been captured.

I have included as Attachment A to this decision the schedule of relevant documents. This provides a description of each document that falls within the scope of your request and the access decision for each of those documents.

I have decided to grant full access to documents referenced 6-7 and 10.

I have decided to grant partial access to documents referenced 1-5 and 8-9 and 11-12 under section 50 of the Act, with deletions applied to information that I consider would be contrary to the public interest to disclose under the test set out in section 17 of the Act.

Statement of Reasons

In reaching my access decision, I have taken the following into account:

Factors favouring disclosure (Schedule 2)

- Section 2.1 (a)(viii) – reveal the reason for a government decision and any background or contextual information that informed the decision.

Factors favouring non-disclosure (Schedule 2)

- Section 2.2 (a)(ii) – prejudice the Protection of an Individual’s Right to Privacy; and
- Section 2.2 (a)(xi) – prejudice trade secrets, business affairs or research of an agency or persons.

Documents referenced number 2-4 and 12 consist of commercial information of third parties. These documents contain information of commercial value and would, or could reasonably be expected, to be destroyed or diminished if the information were disclosed. The financial figures (rates) for road works holds commercial value which could be used by competitors. It is a fine balance to seek transparency in information release and protect against information being used to the commercial disadvantage of a third-party tender or contractor.

Furthermore, disclosure of this information could be expected to prejudice the future supply of information to TCCS for this purpose. Receiving detailed information from third parties requires a level of trust that the detailed information will be used as indicated and that providers will not be exposed to adverse outcomes if the information is not protected. In this case, the release of any commercial information at this time would be damaging for the reasons I have discussed and outweighs the release in this instance.

Documents referenced 1, 5, 8-9 and 11 of the identified documents contain personal information of third-party contractors. Disclosure of personal information is governed by the ‘use and disclosure’ privacy principles. Part 3 of the Information Privacy Act 2014 (TTP 6.1) states that an agency that holds personal information about an individual that has been collected for a particular purpose, must not disclose the information to a third party unless the individual has consented to the use or disclosure of the information.

In considering the type of information I propose to withhold from release, I am satisfied that the factors in favour of release can still be met while protecting the personal information of individuals involved. I find the protection of this information outweighs disclosure in this instance. I have, therefore, decided that it is not in the public interest to disclose information that is considered as personal information.

Charges

No fee is payable as the number of pages being released is within the fee-free threshold.

Online publishing – disclosure log

Under section 28 of the Act, TCCS maintains an online record of access applications called a disclosure log. Your original access application, my decision and documents in response to your access application will be published in the TCCS disclosure log from 3 days after the date of this decision. Your personal details will not be published.

You may view TCCS' disclosure log at www.tccs.act.gov.au/about-us/freedom_of_information.

Ombudsman review

My decision on your access request is a reviewable decision as identified in Schedule 3 of the Act. You have the right to seek an Ombudsman review of this outcome under section 73 of the Act within 20 working days from the day that my decision is published in TCCS' disclosure log or a longer period allowed by the Ombudsman.

If you wish to request a review of my decision, you may write to the Ombudsman at:

The ACT Ombudsman
GPO Box 442
CANBERRA ACT 2601

Via email: actfoi@ombudsman.gov.au

ACT Civil and Administrative Tribunal (ACAT) review

Under section 84 of the Act, if a decision is made under section 82(1) on an Ombudsman review, you may apply to the ACAT for review of the Ombudsman decision.

Further information may be obtained from ACAT at:

Tim,

Paul will have a look at this afternoon.

Please note, the 'total cost' tab typically gets updated after each months claim is received because we certain information other than the square meterage to confirm the total cost to date.

We haven't received the claim from Downer.

Subject: Joint Defects Update / Remedial spreadsheets to date

Hi [REDACTED],

Please find JDI Inspection to date. [REDACTED] and [REDACTED] will be back at it today.

I've also attached the latest Remedial Worksheet (May 2017) and combined list (March). Refer to the Remedial Worksheet to update the combined list between the months of March and May.

Municipals were approximately 90% complete. Arterials were only 20% complete.

If you are planning on doing remedial work next week, please program as many of these sites as possible.

Subject: Reseal spreadsheet - latest, plus upgrade meeting

Hi Peter,

For your reference please find attached latest Reseal spreadsheet.

It includes the final site completed in April.

Tim – I'm happy to meet sometime this month to develop an updated spreadsheet. Any suggested dates?

Regards,
